

## **Solution Document – Category Page**

### **E-commerce Website Design**

An e-commerce website, by definition, is a website that allows you to buy and sell tangible goods, digital products or services online.

Here we need to design a website with basic pages/features which are necessary for an e-commerce website.

### **Technology**

We will be using Bootstrap, HTML, CSS, jQuery & JavaScript for designing the project.

### **Pages**

Home	Products	Product View	Category	Cart
Checkout	Order Confirmation	About Us	Contact Us	Search

### **Important Links Used in Project**

Bootstrap:

Font- awesome Icons:

<https://fontawesome.com/icons>

Font- awesome Icons CDN:

<https://cdnjs.com/libraries/font-awesome/5.10.0>

In the previous document, we have created “Product View Page”, Now we will be designing “Category Page”.

## **Category Page**

So, what is a category page?

The category page is the one of the most important page website. This is the part where you help narrow down options for people and guide them to their desired product page so they make a purchase.

Just like browsing a supermarket, the easier it is to navigate and find desired products, the easier it will be for people to buy things. The category page is like store aisles, get them right and your customers will have a smooth shopping experience.
