An e-commerce website, by definition, is a website that allows you to buy and sell tangible goods, digital products or services online.

Here we need to design a website with basic pages/features which are necessary for an e-commerce website.

Technology

We will be using Bootstrap, HTML, CSS, jQuery & JavaScript for designing the project.

About Us Page

So, what is an order confirmation page?

The about us page is commonly used by all types of businesses to give customers more insight into who is involved with a given business and exactly what it does.

The primary purpose of an about us page is to inform the reader about the company and its operations.
